7551-7552 Position limit switch
}

Cross position limit switches designed to control the movement of overhead travelling cranes, hoists and complex machine tools.
The choice of materials and technical solutions adopted enable use in harsh operating conditions.

## FEATURES

- Designed to guarantee excellent performance in the most challenging operating conditions.
- Rods with 4 maintained positions every $90^{\circ}$.
- 4 fixing holes.
- Positive opening NC contacts for safety functions.
- Mechanical life of switches: 1 million operations.
- Operation frequency: 3600 operations/hour max.
- IP protection degree: 7551-7552 is classified IP66 with specific cable clamp M20.
- Extreme temperature resistance: $-40^{\circ} \mathrm{C}$ to $+70^{\circ} \mathrm{C}$.
- It features die-cast aluminum alloy enclosure, with bushings made of sinterized material and head made of zama to resist any violent impact, chemical aggression and rust and reduce the need for routine maintenance operation on the head.
- All materials and components used are wear resistant and guarantee protection of the unit against water and dust.

## OPTIONS

- 4 snap action switches with 1NO+1NC contacts or slow action switches with 1NC contact.
- 3 outputs for cable clamps to reduce installation time and make wiring easier.

## CERTIFICATIONS

- CE marking and EAC certification

## MAXIMUM ACTUATING DIMENSIONS

## Rods with 4 maintained positions

- Pre-travel angle for rotation contact operation: $49^{\circ}$
- Maximum rotation angle for each maintained position: $90^{\circ}$
- Average angle for the mechanical tripping: $48^{\circ}$
- Maintained positions each: $90^{\circ}$

In order to ensure proper operations, the dimensions shall not be increased; anyhow, they can be decreased, taking into account that the closer the impact point is to the center of the head, the higher the impact and the mechanical wear of rod and shaft are. IMPORTANT: the maximum impact speed is $1.35 \mathrm{~m} / \mathrm{s}$, refering to the ideal impact points showed in the drawing.
